Section 130 Program Overview

AASHTO SCORT Meeting
February 22, 2017

Kelly Morton
FHWA Office of Safety
Agenda

1. Overview of Section 130
2. Funding Updates
3. Eligibility
4. Fatalities
5. Reporting Requirements
6. Alternative Funding Sources
7. Updates on What’s New
8. Questions
Overview – What is “Section 130”? 

• Also called “Rail-Highway Crossings Program”

• Title 23 of the United States Code, Section 130, was created by Congress in 1987 to provide funds for the “Elimination of Hazards” at public railway-highway crossings
  $160 million per year

• ISTEA and TEA-21 continued Section 130
  $160 million per year
Overview

• 2006: SAFETEA-LU increased Section 130 apportionment
  ➢ $220 million per year
  ➢ Additional reporting requirements
  ➢ Added 2% provision for States to use when analyzing data for annual report

• 2012: MAP-21 continued Section 130
  ➢ $220 million per year
# FAST Act

Fixing America’s Surface Transportation (FAST) Act signed into law on December 5, 2015

- Authorizes $305 billion over five years from FY 2016-FY 2020
- Increases Section 130 funding by $5 million per year

<table>
<thead>
<tr>

<tbody>
<tr>
<td></td>
<td>$350 M*</td>
<td>$230 M</td>
<td>$235 M</td>
<td>$240 M</td>
<td>$245 M</td>
</tr>
</tbody>
</table>

*Includes a one-time increase to $350 million from the FY 2016 Omnibus bill passed on December 18, 2015
Other FAST Act Requirements

• Adds a provision to include projects that eliminate hazards from crossings blocked due to idling trains
• Requires FRA to develop a model grade crossing action plan
• Requires FRA to create regulations that require each State to develop or update a State Action Plan
• States able to use Section 130 funding to develop or update their State Action Plan
• State Action Plans will be reviewed and approved by FRA
Funding

• Section 130 funds are set-aside from a State’s Highway Safety Improvement Program (HSIP) funds through FHWA
• Funds are apportioned to States by formula
• Minimum of 0.5% to each State
Funding distribution formula for a State
Per: 23 USC 130(e)(1)

- 50% Number of Public Crossings In a State
- 12.5% Lanes Miles of Federal-Aid Highway
- 20% Vehicle Miles on Federal-Aid Highways
- 17.5% Payments Into the Highway Trust Fund
Updates – FY 2017 Funding Apportionments

• For FY 2017 the largest amounts are:

- $18.9 Million
- $15.7 Million
- $10.7 Million
Funding

• Obligation Period is the Fiscal Year + 3 Years. After obligation period ends, the funds lapse and can no longer be obligated.
  ➢ For example, funds apportioned in FY 2017 are eligible for obligation through the end of FY 2020
  ➢ Some States “pool” their funds for 2-4 years to pay for larger projects

• Federal Share is 90% for Section 130 funds
## National Obligation Rates

Through the end of FY 2016

<table>

<td>79.6%</td>
<td>51.0%</td>
</tr>
</tbody>
</table>
Funding

Per: 23 USC 130(e)(1)

• 50% of a State’s apportionment are set-aside to be used for protective devices

• Remaining 50% can be used for any hazard elimination project including protective devices

➢ The FAST-Act added eligibility for crossings blocked by idling trains
Eligibility

Section 130 funds **CAN** be used at:

• Any public railway-highway grade crossing

• Any public Bike / Ped Crossings including separated bike paths and public pedestrian trails in addition to sidewalks adjacent to a public roadway
Eligibility

Section 130 funds **CAN** be used for:

• Preliminary Engineering, Design, Right-of-Way and Construction Costs

• Matching funds for a local agency on State funded projects per 23 USC 130(h)

• Incentive payments to local agencies to close a public crossing per 23 USC 130(i)

• Data collection for a State’s reporting requirements: up to 2% of a State’s apportionment per 23 USC 130(g)

• Developing a State Action Plan as required under the FAST-Act
Eligibility

Section 130 funds can **NOT** be used for:

- Pedestrian trespassing away from a grade crossing such as fencing along a railroad right-of-way
- New grade crossing on a new railway or roadway
- Automated enforcement such as cameras
- Quiet zones
- Crossings on light-rail, streetcar, or trolley lines
Overview – Program Administration

• The Section 130 Program is funded by Federal Highway Administration (FHWA), and administered by the State DOTs
  ➢ States prioritize and select the projects
  ➢ States oversee the design and construction

• FHWA Division Office in each State has a safety engineer who is primary contact for Section 130
Fatalities at Crossings
Reporting Requirements

• Per 23 USC 130(g), each State shall submit a report to FHWA each year on the progress being made to implement Section 130 and the effectiveness of the improvements

• Report is submitted annually by August 31 along with a State’s annual HSIP report
Reporting Requirements

Biennial Report to Congress

• Every two years, FHWA submits a Section 130 Report to Congress (required by law)
• It uses the States annual reports from the previous two years
• Next report due in 2018
Alternative Funding Sources for Crossings

Highway Safety Improvement Program (HSIP)

- $2.3 billion+/- annually
- Projects are eligible if grade crossings are an emphasis area or focus area in a State’s Strategic Highway Safety Plan (SHSP)
- Data driven program, all public roads eligible
- Get involved in your SHSP process!

www.fhwa.dot.gov/safety/hsip
www.fhwa.dot.gov/hsip/shsp
Alternative Funding Sources for Crossings

Surface Transportation Block Grant Program (STBGP)

- $11-$12 billion annually
- Eligible activities include: “Highway and transit safety infrastructure improvements and programs, installation of safety barriers and nets on bridges, hazard eliminations, mitigation of hazards caused by wildlife, railway-highway grade crossings.”
- For use on certain roadway functional classifications—STBGP is generally not eligible on rural minor collectors and local roads
  - However, a special provision allows a State to use up to 15% of its rural suballocation on minor collectors

www.fhwa.dot.gov/fastact/factsheets/stbgfs.cfm
Alternative Funding Sources for Crossings

National Highway Performance Program (NHPP)

- $22-$24 billion annually
- Eligible activities include: “Highway safety improvements for segments of the NHS. Highway safety improvements include those improvements on the NHS that are eligible under 23 U.S.C. 148(a)(4)”
- Railway-highway crossings fall under 23 U.S.C 148(a)(4) eligibility. However, they must be on roadways on the National Highway System (NHS)

Alternative Funding Sources for Crossings

National Highway Freight Program

• $1.1-$1.5 billion annually (Under FAST Act)
• Eligible activities: “must contribute to the efficient movement of freight on the NHFN and be identified in a freight investment plan included in the State’s freight plan” 23 U.S.C. 167 (i)(5)(A)
• Railway-highway grade separation is listed as eligible activity. However, project must be on the National Highway Freight Network (NHFN)

www.fhwa.dot.gov/fastact/factsheets/nhf vfs.cfm
https://ops.fhwa.dot.gov/freight/infrastructure/nfn/
Alternative Funding Sources for Crossings

FASTLANE Grants

• $4.5 billion annually + $850 million for FY2017
• Established by U.S. DOT Secretary Foxx under FAST Act as the Fostering Advancements in Shipping and Transportation for the Long-term Achievement of National Efficiencies (FASTLANE) grant program
• Funds critical freight and highway projects to support improving the Nation’s freight system. Eligible activities include “a railway-highway grade crossing or grade separation project”

www.transportation.gov/buildamerica/FASTLANEgrants
Training

National Highway Institute (NHI) offers 2 training courses:

**NHI-380005 Railroad-Highway Grade Crossing Improvement Program**
2-Day Course that involves information on crossing technologies and devices for at-grade crossings, and a brief overview of the Section 130 Program.

**NHI-3800097 An Overview of the Railroad-Highway Grade Crossing Improvement Program**
1-Day Course that involves more specifics of the Section 130 Program and eligibilities, etc.

Updates – What’s new?

• Model Action Plan—“Highway-Railway Grade Crossing Action Plan and Project Prioritization Noteworthy Practices” FHWA/FRA Joint project, Published November, 2016

• FHWA Biennial Report to Congress Signed August, 2016

• New Grade Crossing Handbook Just Kicked-off, Estimated 2018

• TRB Synthesis Study 47-15 (Preemption) Late 2016
Updates – What’s coming?

• Web-Based, online version of NHI-380005 Railroad-Highway Grade Crossing Improvement Program Training 2018

• FRA Rulemaking on State Action Plans 2017-2018

• Mandate for all States to develop or update State Action Plans FRA ????
